NOTE FROM XAKWA FOUNDATION

This impact report documents the first Social Development outreach initiative of UITVALGRONDE CHROME implemented through Xakwa Foundation, a subsidiary of Xakwa Holdings. This report covers UITVALGRONDE's social responsibility progress, implementation, and level of commitment as contemplated in the mining charter. We report on SLP, SED and ESD projects for the mineral right's owner on an ongoing basis through-out the mine's life span. As a responsible corporate citizen we advocate for diligent social, environment and educational participation with the area of the mine's interest.

1. ABOUT THIS REPORT

After extensive business case studies where done in communities surrounding the Uitvalgronde's mining radius we were able to identify worthy projects the mine can invest and assist with. This report captures the planning and execution of CSI and SLP projects UVG Chrome is committed to, both from mandatory compliance according to the mining charter and from the company's public relation's perspective. Aside from SLP commitments our CSI aims to assist lesser privileged and most vulnerable members of the community who are not in positions to be active in both business and employment opportunities the mine has on offer. These include (not limited to) schools (Creches, primary and secondary schools), old age homes, disability centres, community sports, arts and culture projects and other below-the-line projects that will benefit the community of GaLuka and others within the 50km radius of the mine. Ultimately these exercises will assist in strengthening the mine's relationship with its communities.

2. PROBLEM STATEMENT

As part of Uitvalgronde Chrome's social development programmes we aim to make a visible difference within the community of Ga Luka and its surroundings communities. Through data collected by the Xakwa Foundation team, we were able to identify Leragane Early Learning Centre and Masree chreche both situated in Ga Luka.
